Resume

Resume value: rgmft4hpqew4hzpa

OBJECTIVE:

A systems professional with over 18 years experience and a Masters of Science in Finance with a broad knowledge of finance; corporate and investments, and statistical techniques.

EXPERIENCE:

8/1995 - Present   ABC Inc.   Boston, MA
Consultant SWE/Developer

Develop, maintain, and enhance programs in a distributed on-line computing environment as well as programs in a batch environment. Provide technical guidance and direction to junior programmers. Gathered and assembled information from the systems users to develop project/program specification, test plans, and prepare project documentation. Provide 24/7 production support. System: CICS, COBOL, VSAM and DB2.

2/1992 - 8/1995   Acme Inc.   Boston, MA
Senior Systems Analyst

Maintained and enhanced both on-line and batch programs for an institutional mutual fund trading system. Provided technical guidance and direction to junior programmers. Developed program specifications for on-line and batch programs, coded program enhancements and changes, conduct unit and system test; and pepare project documentation. Batch systems development done using Micro Focus COBOL and PROXMVS. Also provide production support. System: CICS, COBOL, and VSAM.

5/1991 - 2/1992   Company Enterprises   Boston, MA
Programmer/Analyst

Maintained and enhanced on-line and batch programs, conduct unit and system level test, prepare project documentation. Assist in the installation of the system on client computer. Played a major role in the selection of a software package used to convert programs written in COBOL/CICS to COBOL/400. Responsible for the installing of software on an AS/400. The system was developed and maintained on a PC platform using Micro Focus COBOL and Micro Focus CICS and then ported to the mainframe. System: CICS, COBOL, and VSAM.

7/1985 - 5/1991   The Firm LLP   Dallas, TX
Programmer/Analyst

Maintained and enhanced on-line and batch programs, conduct unit and system level test, prepare project documentation. Assist in the installation of the system on client computer. Played a major role in the selection of a software package used to convert programs written in COBOL/CICS to COBOL/400. Responsible for the installing of software on an AS/400. The system was developed and maintained on a PC platform using Micro Focus COBOL and Micro Focus CICS and then ported to the mainframe. System: CICS, COBOL, and VSAM.

EDUCATION:

6/1985   Brandeis University   Boston, MA
Master's Degree
Master's in Software Engineering

6/1984   Stonehill College   Boston, MA
Bachelor's Degree
Bachelor of Science in Business Administration
