• Objective: An application for 'IPhone & IPad device' which allows users to see Beauty Product & get the update information about match, Users to select a list of the Product iteams & user to pick the
photo and modify the photo according the user.

• Client: BR, Austrialia.
• Tools Required: XCode 5.0, Cocoa touch.
• Web Services: Json parser.
• Contribution: Designed, Web Service Parsing, Web View ,Internet reach ability
• Itunes Link: https://itunes.apple.com/ca/app/beauty-resources/id728659293?mt=8

9. Moec
• Objective: An application for 'IPhone & IPad device'which allow this
app outlines some strategic young people can adopt when learning to
functioning positively as a individual or in a group. Maroon oec provides
outdoor adventure based program to assist young people.

• Client: Moec, Queensland.
• Tools Required: XCode 5.0, Cocoa touch.
• Web Services: Json parser.
• Contribution: Designed, Web Service Parsing ,Internet reach ability,
Crucible code review,Kiwi Test cases(Unit Test)
• Itunes Link: https://itunes.apple.com/us/app/moec-trl/id828364218?mt=8

10. iSO Claim Search
• Objective: An application for 'IPhone & IPad device' it is easy to use
mobile app will facilate faster claim handling to deliver superior claim
data.So we can search for the previous user data.
• Team Size: 2
• Client: Jersey City,NJ.
• Tools Required: XCode 6.3, Cocoa touch.
• Web Services: JSON parser.
Contribution: Designed,Red Leser Integration,Sonar Tool,UnitTest Cases &
Code Coverage.
• Itunes Link: https://itunes.apple.com/us/app/id996167984?mt=8

11. X3 Watch
• Objective: An application for 'IPhone & IPad device' and x3watch is an
accountability application designed to help with online integrity brought
to you by xxxchurch.com. When you access questionable material on the
internet using the X3watch browser, the URL, date and time visited are
recorded.
• Team Size: 2
• Client: Jersey City,NJ.
• Tools Required: XCode 7.2, Cocoa touch.(Swift)
• Web Services: JSON parser.
Contribution: Designed, Webservice , crashlytics, Webview, Sonar
Tool,UnitTest Cases,XCTest Cases.
• Itunes Link: https://itunes.apple.com/in/app/x3watch/id337170101?mt=8

12. VideoTap
• Objective: An application for 'IPhone & IPad device' and VideoTap is an
'Interactive Smart Video'.VideoTap's proprietary interactive video ad
serving technology, allows advertisers to target the content of their
creatives to targeted prospective customers, using unique 'Adaptive Video
Ad' formats. On unique feature is the ability to deliver 'expandable
video ads'
• Team Size: 3
• Client: VideoTap
• Tools Required: XCode 7.2/8.2/8.3, Cocoa touch.(Swift2.0/2.2/3.0)
• Web Services: JSON parser.
Contribution: Designed, Webservice , Sharing Sdk,Thirdparty
Class,Orrentation.
Education
Bachelor of Technology in Technology
ABSS Institute of Technology Meerut, Uttar Pradesh
2011
S.V.M Inter College

2005
